

AeroProfessional Volume Recruitment

Our fully managed roadshows generate high-volume quality footfall, with maximum attendance and success rates.

About Our Assessment Centres & Roadshows

Working within the Aviation sector, we have contacts across the globe, making us the partner of choice for many airlines looking to attract global talent to their aviation roadshows and assessment days.

Our roadshows are designed to generate quality footfall, with maximum attendance and conversion. Our candidate network is extensive, and our clients benefit from an increased reach into niche talent pools.

Our specialist teams work to cover everything you need, from working with your teams to select the best locations and venues, taking care of advertising campaigns, pre-networking and vetting of candidates and event preparation.

Our experienced assessors can be involved as little or as much as you like in the assessment activity, acting either on your behalf or as an extension to your own assessment team. Many of our clients enjoy leaving our teams to follow-up with candidates; providing assessment outcomes or offering contracts to successful attendees.

I was invited to an open day in Abu Dhabi with AeroProfessional and Hi Fly. The day was well organised, started with a quick introduction followed by a detailed presentation about the opportunity... We had time for some open questions and then a personal chat....as everyone has different needs, I liked this part a lot.
